

Patient Administration Work Group

Co-chairs: Brian Postlethwaite & Brett Esler

The Australian Patient Administration workgroup is currently active in producing FHIR profiles that cover how to represent the PA resources for use in the Australian context.

Most notably profiles for Patient and Practitioner and their Identifiers.

All Publications Listed at [HL7 Australia Standards Development](#)

Meetings

- How will FHIR profiles/messages/documents get mapped to the v2/CDA world in the wild
- Management of the governance of these artifacts
- Promotion and alignment of activities for governance
- Education for all levels (dev, operation, use) and awareness of activities
- Hosting the development of profile artifacts for collaboration/consensus
- Localizing the FHIR terminologies (bringing forward the AU v2 content into FHIR)

The next regular meeting of PA is by web-conference 11am AEST

 08 Apr 2020
